Feature ID	Description	Details	Status	Cloud Instance	Added to Roadmap	Estimated Release
72224	SharePoint: Swap root site from SharePoint admin center for customers with 10k+ seats	Customer tenants with more than 10K seats or more can now swap their SharePoint root site from within the SharePoint admin center user interface.	In development	Worldwide (Standard Multi-Tenant), GCC High, DoD, GCC, Germany	24-May-2021	May CY2021
82325	Microsoft Teams: Answer Meeting Nudges with Video for iOS	This feature brings the ability for iOS devices to automatically answer incoming meeting nudges with their video on. The feature availability is controlled through AutoAnswerwithVideo.	In development	Worldwide (Standard Multi-Tenant), GCC High, DoD, GCC	24-May-2021	June CY2021
68375	Visio: Collection of shapes	Create a collection of your favorite shapes to quickly access and use them in your document.	In development	Worldwide (Standard Multi-Tenant)	24-May-2021	September CY2021
82960	Microsoft Teams: Speed Dial for iOS	Speed dial is coming to mobile devices. This feature makes your most used calling contacts easy to access with one tap dialing.	In development	Worldwide (Standard Multi-Tenant), GCC High, DoD, GCC	24-May-2021	June CY2021
83077	Microsoft Teams: Security, compliance, and data protection capabilities for apps	For Microsoft 365 Certified Teams apps, admins can view security, compliance, and data protection capabilities in a new tab on the app's detail page in the Teams Admin Center. This transparency gives Microsoft customers trust in the applications that run their organizations and ISVs an opportunity to showcase their hard work in becoming M365 Certified.	In development	(not listed)	24-May-2021	June CY2021
83382	Microsoft Teams: Speaker Attribution in Live Transcript in Teams Meetings in GCC Clouds	Teams Meetings in GCC clouds will now have live transcript utterances attributed to the speaker of the utterance.	In development	GCC	24-May-2021	July CY2021
78707	Visio: Organizational charts in Visio for the web	Visualize your team structure, hierarchy levels, and reporting relationships with new org chart shapes in Visio for the web. Users with a Visio Plan 1 or Visio Plan 2 license will be able to create org charts directly in Visio for the web or from data in Excel using the Data Visualizer add-in.	In development	Worldwide (Standard Multi-Tenant), GCC High, GCC	24-May-2021	June CY2021
81013	Word, PowerPoint, and Excel for Business: Quickly bring up a person's contact card when co-authoring	When co-authoring in Word, PowerPoint, or Excel for the Web you can access people's contact cards by clicking their profile picture in the ribbon.	In development	Worldwide (Standard Multi-Tenant)	24-May-2021	June CY2021
81966	Microsoft Teams and PowerPoint for Business: Annotation support in PowerPoint Live in Teams and Slideshow	We are introducing virtual laser pointer and ink annotations so presenters can engage more with their audience by drawing attention or clarifying certain sections of the PowerPoint deck. Just as you would use a physical laser point in a room, PowerPoint Live allows you to effectively point at different places in the presentation so the audience can easily follow along what's on the slide.	In development	Worldwide (Standard Multi-Tenant)	24-May-2021	May CY2021
81993	SharePoint: Email notification settings	With this feature, users can unsubscribe or re-subscribe to their favorite SharePoint email notifications. Their preference will be respected for these email notifications.	In development	Worldwide (Standard Multi-Tenant)	24-May-2021	June CY2021
81994	SharePoint: Page details updates	This update to the page details panel will allow page authors to delete a page and change the page's URL.	In development	Worldwide (Standard Multi-Tenant), GCC High, DoD, GCC, Germany	24-May-2021	June CY2021
81997	Planner: View Planner tasks on your Outlook calendar for GCC, GCC High, and DoD	Users in GCC, GCC High, and DoD environments can view Planner tasks in their Outlook calendar by importing plans into Outlook via an iCalendar feed.	In development	GCC High, DoD, GCC	24-May-2021	July CY2021
81998	Yammer and SharePoint for Business: Yammer Conversations Web Part V3	We are introducing 3 new configurations to the Yammer Conversations SharePoint Web Part: new horizontal layout, new filter option to show only Questions or All Conversations, and a new configuration option to show or hide the Yammer publisher.	In development	Worldwide (Standard Multi-Tenant)	24-May-2021	June CY2021
82512	Microsoft Teams: Admin notifications for Custom app submissions	When a developer submits a custom app for IT admin approval, admins will receive a notification in a dedicated Teams channel, so they can review and take next steps to publish the app.	In development		25-May-2021	June CY2021
83144	Microsoft Teams: Direct app purchases and invoice billing support in Teams Admin Center	Admins can complete orders for paid app licenses directly within Teams Admin Center. In addition, invoice billing is a new supported payment method.	In development	Worldwide (Standard Multi-Tenant), GCC	26-May-2021	July CY2021
81563	Microsoft Teams: Offline access for files	Users can now access previously opened files even when there is no internet connectivity.	In development	Worldwide (Standard Multi-Tenant), GCC	26-May-2021	June CY2021
81999	Cortana and Outlook for Business: Briefing email support for French, German, Italian, and Portuguese	This personalized, actionable briefing email from Cortana, automatically delivered to your Outlook inbox to help you start the day on track and stay on top of tasks, will support French, German, Italian, and Portuguese.	In development	Worldwide (Standard Multi-Tenant)	26-May-2021	June CY2021
82001	Microsoft Defender for Endpoint: Endpoint discovery for Microsoft Defender for Endpoint	Endpoint for Microsoft Defender for Endpoint enables organizations to discover and secure unmanaged endpoints. Once discovered integrated workflows can be used to secure the devices using Defender for Endpoint's threat and vulnerability management, threat detection and automated incident responses capabilities.	In development	Worldwide (Standard Multi-Tenant)	26-May-2021	June CY2021
83674	Microsoft 365 Admin center: Monitoring Preview	Service health dashboard in M365 Admin center is getting updated to provide a coherent experience that provides visibility on issues that affects customers across any Microsoft 365 workload and provides necessary categorization on issue is owned by Microsoft or needs action from customer. Further it provides signals for scenarios that helps customers to infer the extent of impact for posted communications. We have Exchange monitoring experience in limited preview and the plan is to expand this to more services in future.	Rolling out	Worldwide (Standard Multi-Tenant)	27-May-2021	May CY2021
63007	Visio: Enhanced collaboration experience with modern commenting	Set your stage with a richer commenting experience that provides a modern UI and is consistent with other Office apps.	In development	Worldwide (Standard Multi-Tenant), GCC High, GCC	27-May-2021	May CY2021
83699	Microsoft 365 compliance center: Communication Compliance Sensitive information types per location report	Review and export the sensitive information types detected in all your Microsoft 365 and non-Microsoft communication channels currently scoped into your Communication Compliance policies.	In development	GCC High, DoD, GCC	27-May-2021	September CY2021
83700	Microsoft 365 compliance center: Communication Compliance policy health check and ability to pause policy	Provide guidance during Communication Compliance policy creation on the settings used and the potential volume of items that will be captured. Pausing a policy will enable an administrator to manually suspend evaluations of communications.	In development	GCC High, DoD, GCC	27-May-2021	September CY2021
83701	Microsoft 365 compliance center: Communication Compliance Teams conversation context	Provide the ability to retrieve additional conversation context for Microsoft Teams messages that has matched a Communication Compliance policy. This feature will help an investigator make a more informed decision of remediation actions to take next.	In development	GCC High, DoD, GCC	27-May-2021	September CY2021
83702	Microsoft 365 compliance center: Communication Compliance can now leverage optical character recognition to extract and evaluate messages	Introducing the ability to extract printed or handwritten text from images using Azure's Computer Vision Optical Character Recognition (OCR). Text extracted will then be evaluated against Communication Compliance policies conditions.	In development	GCC High, DoD, GCC	27-May-2021	June CY2021
83703	Microsoft Information Protection: Auditing and Analytics in Office apps	Office apps (Word, Excel, PowerPoint, Outlook) will now send user label activity data to the Audit Log and Activity Explorer for admins to search and review.	In development	GCC High, DoD, GCC	27-May-2021	July CY2021
82742	Microsoft Teams: Guest Access in DoD	Teams now supports Guest Access between tenants inside the DoD Cloud.	In development	DoD	27-May-2021	June CY2021
82803	Microsoft Teams: Guest Access in GCC - High	Teams now supports Guest Access between tenants inside the GCC-H Cloud.	In development	GCC High	27-May-2021	July CY2021
82958	Microsoft Teams: Focus or minimize shared content in a Teams meeting for Mobile	Teams mobile users now have more flexibility in how to view a meeting when content is shared, we added the ability to let phone/tablet users to minimize shared content to see people instead, or focus on content by hiding other's videos.	Rolling out	Worldwide (Standard Multi-Tenant), GCC High, DoD, GCC	27-May-2021	May CY2021
83487	Microsoft Teams: Lower all raised hands for GCC-High and DoD	Meeting organizers and presenters will see an option to lower all raised hands from the participant pane.	In development	GCC High, DoD	27-May-2021	July CY2021
83563	Microsoft Teams: Virtual Breakout Rooms for DoD	Meeting hosts can create breakout rooms to be used by meeting participants for smaller group discussion. They can assign participants to a room and call them back to the larger group when the breakout is complete.	In development	DoD	27-May-2021	June CY2021
81995	Outlook: Meetings online by default	Whether you're working from home or meeting with people in other locations, all your meetings will automatically be online so everyone can attend. This setting can be disabled by users from Outlook, or by admins from PowerShell. In its initial release, only Teams and Skype will be supported, and 3rd party online meeting add-ins will not be included.	In development	Worldwide (Standard Multi-Tenant)	27-May-2021	May CY2021
82002	Microsoft Stream: Variable playback speed (0.5-2x) for Microsoft Teams meeting recordings	For Teams meeting recordings saved to OneDrive & SharePoint you'll now be able to change the playback speed (0.5x - 2x) while watching the video.	In development	Worldwide (Standard Multi-Tenant)	27-May-2021	September CY2021
82003	Microsoft Search: Find a meeting recording based on what was said	For a Teams meeting that was recorded to OneDrive & SharePoint and was also transcribed live during the meeting you can now search in Microsoft Search to find the meeting recording file based on the transcript.	In development	Worldwide (Standard Multi-Tenant)	27-May-2021	July CY2021
82004	Outlook: Play My Emails available in more countries	Play My Emails in Outlook for iOS and Android can be used by any English speaker worldwide.	In development	Worldwide (Standard Multi-Tenant)	27-May-2021	July CY2021
82005	Microsoft 365 compliance center: New Permissions management page	We're adding a new Permissions page within the Microsoft 365 compliance center. Admins will be able to use this new page to view and assign user roles and create and modify custom role groups - activities currently managed within the legacy Office 365 Security & Compliance Center.	In development	GCC High, DoD, GCC	27-May-2021	June CY2021
82006	Microsoft 365 compliance center: Communication Compliance now support 7 languages for the Threat, Targeted Harassment and Profanities classifiers	Communication Compliance can now detect threat, targeted harassment, and profanities in the following languages: English, French, Spanish, German, Portuguese, Italian, Japanese, and Chinese.	In development	GCC High, DoD, GCC	27-May-2021	June CY2021
82007	Microsoft 365 compliance center: New export experience for Core and Advanced eDiscovery	Core eDiscovery export is being retooled to improve reliability and scalability. The experience will be simplified and does not rely on a click-once application. Automated download of exported content from Core eDiscovery will still not be supported. We are also introducing a similar experience in Advanced eDiscovery that will have the same options and can be automated through the Microsoft Graph APIs.	In development	Worldwide (Standard Multi-Tenant), GCC High, DoD, GCC	27-May-2021	August CY2021
82008	Microsoft 365 compliance center: Data loss prevention (DLP) data surfaced in Activity Explorer	DLP-related data sets which currently flow into Microsoft 365 Audit logs will now also surface within Activity Explorer under an activity called 'DLP rule matched'.	In development	GCC High, DoD, GCC	27-May-2021	July CY2021

Feature ID	Description	Details	Status	Cloud Instance	Added to Roadmap	Estimated Release
72224	SharePoint: Swap root site from SharePoint admin center for customers with 10k+ seats	Customer tenants with more than 10K seats or more can now swap their SharePoint root site from within the SharePoint admin center user interface.	In development	Worldwide (Standard Multi-Tenant), GCC High, DoD, GCC, Germany	24-May-2021	May CY2021
63219	Microsoft Teams: Inline Message Translation in channels for iOS	Inline message translation in Channels lets users translate Channel posts and replies into their preferred language. To translate a message, press-and-hold the channel post or reply and then select "Translate". The post/reply will be translated to your UI language by default. If you want to change the translation language, go to Settings General Translation.	In development	Worldwide (Standard Multi-Tenant)	28-May-2021	July CY2021
83704	Microsoft 365 compliance center: Data loss prevention (DLP) solution overview page	The DLP solution overview page will appear in the Microsoft 365 compliance center and house policy recommendation widgets and other actions and guidance related to your available DLP solutions.	In development	GCC High, DoD, GCC	28-May-2021	July CY2021
83399	Microsoft Teams: Inline Message Translation in channels for Android	Inline message translation in Channels lets users translate Channel posts and replies into their preferred language. To translate a message, press-and-hold the channel post or reply and then select "Translate". The post/reply will be translated to your UI language by default. If you want to change the translation language, go to Settings General Translation.	In development	Worldwide (Standard Multi-Tenant)	28-May-2021	July CY2021
83611	Microsoft Teams: Teams webinar capabilities for GCC	Schedule and deliver 1,000 person webinars with the same Teams app you use for meetings! Webinar capabilities support registration page creation, email confirmation for registrants, host management for attendee video and audio, attendance report, plus interactive features like polls, chat and reactions.	In development	GCC	28-May-2021	July CY2021
81947	Bookings: Toggle available for preview experience	Bookings will preview its new experience and making it accessible with a toggle for customers to enable "the new Bookings". Customers who enable the preview experience will have the option to toggle back and forth whenever they need to.	In development	Worldwide (Standard Multi-Tenant)	28-May-2021	June CY2021
